ABOUT COLLEGE

SRM Institute of Science and Technology (SRMIST) is one of India's leading private universities, known for its excellence in education, research, and innovation. Established in 1985, SRMIST offers a wide range of undergraduate, postgraduate, and doctoral programs in engineering, medicine, management, science, humanities, and other disciplines. With modern infrastructure, experienced faculty, industry collaborations, and a strong focus on research and placements, SRMIST provides students with a holistic learning environment that prepares them for successful careers and global opportunities

ABOUT

The Department of Electronics and Communication Engineering (ECE) was established in 2004. It offers four-year B.Tech programs in Electronics & Communication Engineering, Electronics & Computer Engineering, and Biomedical Engineering, focusing on developing strong technical knowledge and professional skills.

The department's vision is to create and share knowledge in Electronics and Communication Engineering through an internationally accredited educational process. It aims to provide students with a unique learning experience while preparing them to become ethical, competent professionals who contribute to society through technological innovation and effective management.

The department's mission focuses on building an education system that meets both local needs and international accreditation standards. It aims to attract and empower talented students and faculty, encourage collaborative research with reputed universities, promote knowledge creation and dissemination, and produce highly competent graduates.

ABOUT HAM

THE HAM CLUB

HAM CLUB is a student run organization that strives to impart enthusiasm and passion for Amateur Radio design and transmission and allied fields among students of all departments of SRM Institute of Science and Technology, Ramapuram Campus.This club refers to: "A service of self training, inter-communication & technical investigations carried on by amateurs,that is,by persons duly authorized under these rules interested in radio techniques solely with a personal aim & without pecuniary interest."This club aims to provide a platform for students to improve their technical knowledge in the fields of Wireless Communication and Networking.This club,for sure,will help the students not only in their studies but also in their career.

VISION

To become a premier student community for wireless innovation, where aspiring engineers bridge the gap between the fundamentals of amateur radio and the future of communication technologies, creating solutions that make a meaningful impact on society.

MISSION

To empower students through hands-on learning in amateur radio, RF engineering, embedded systems, and wireless communication by providing opportunities for experimentation, technical projects, workshops, licensing support, and collaborative innovation, while fostering curiosity, leadership, and technical excellence.

MOTTO

Build. Connect. Innovate.

MESSAGE FROM DEAN

DR. M. SAKTHI GANESH

DEAN (E & T)

SRMIST RAMAPURAM

It gives me immense pleasure to share a message for The Frequency Chronicles, the magazine of HAM Club, which showcases the creativity, technical excellence, and enthusiasm of our students.

Technical clubs play a vital role in enriching the academic experience by bridging classroom knowledge with practical application. HAM Club provides a platform for students to explore emerging technologies, develop innovative solutions, and nurture essential skills such as teamwork, leadership, and problem-solving.

I sincerely appreciate the dedication of the student members and faculty coordinators who have contributed to the club's growth through well-organized events, workshops, and impactful initiatives. Their efforts reflect the spirit of innovation and excellence that our institution strives to foster.

I encourage all students to continue pushing boundaries, embrace new challenges, and utilize such opportunities to transform their ideas into meaningful innovations.

My best wishes to the entire HAM Club team for its continued success.

MESSAGE FROM HOD

DR. SREE RATHNA LAKSHMI.N.V.S

HEAD OF THE DEPARTMENT

DEPARTMENT OF ELECTRONICS AND COMMUNICATION
SRMIST RAMAPURAM

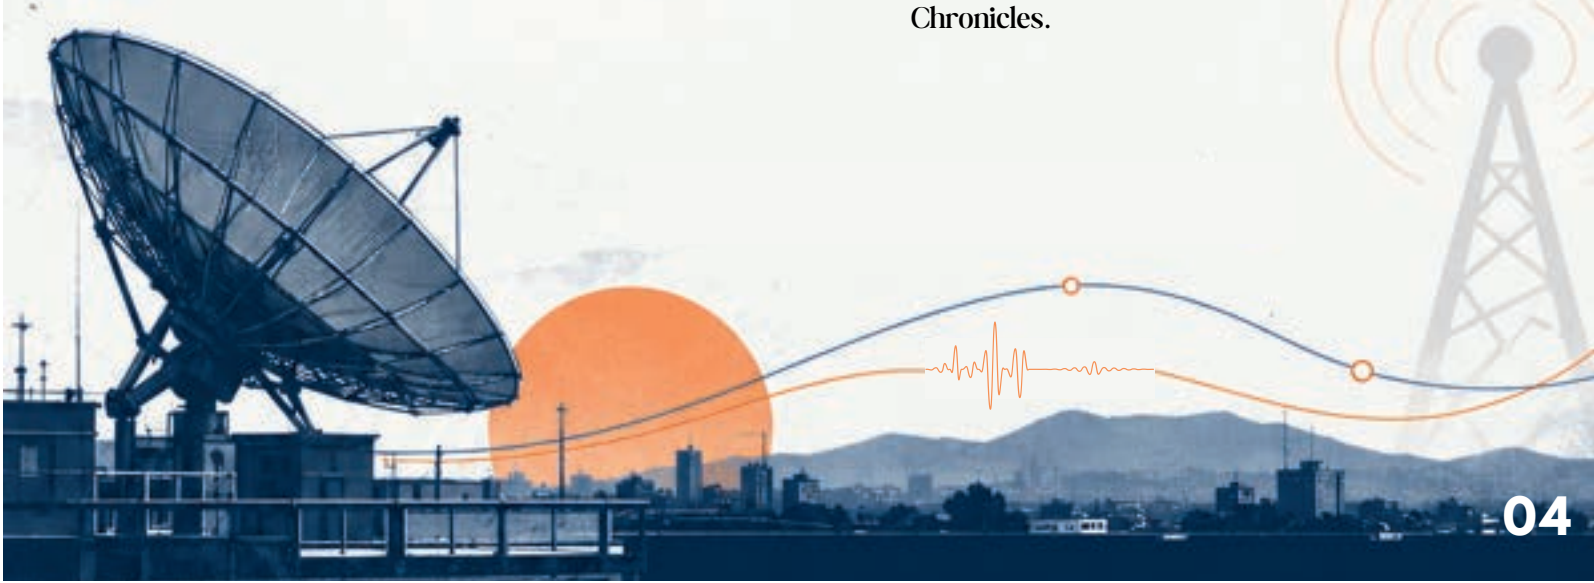

It gives me immense pleasure to be a part of The Frequency Chronicles, the magazine of HAM Club, which beautifully reflects the creativity, technical excellence, and enthusiasm of our students.

Technical clubs provide a valuable platform for students to transform classroom knowledge into practical skills, explore emerging technologies, and develop innovative solutions.

I sincerely appreciate the dedicated efforts of the faculty coordinators and student members whose commitment and passion have contributed to the club's growth and achievements.

I encourage all students to keep exploring, experimenting, and embracing new challenges. May HAM Club continue to inspire young minds and achieve greater milestones in the years ahead.

My best wishes to the entire HAM Club team for the continued success of The Frequency Chronicles.

MESSAGE FROM

FACULTY CO-ORDINATOR

It is a great pleasure to present The Frequency Chronicles, a reflection of the passion, creativity, and technical spirit of HAM Club. This magazine captures the dedication, achievements, and memorable experiences of our students throughout the academic year.

HAM Club serves as a platform for students to explore their interests beyond the classroom, develop practical skills, and transform innovative ideas into meaningful outcomes. Through technical events, workshops, competitions, and collaborative initiatives, our members continue to demonstrate enthusiasm, teamwork, and a willingness to learn.

As the Faculty Coordinator, I am proud to witness the growth and commitment of our student team.

I sincerely appreciate every member who has contributed to the club's journey. May HAM Club continue to inspire innovation, encourage collaboration, and create opportunities for future generations of engineers.

Wishing the team continued success and many more milestones ahead!

EVENTS

BADGING CEREMONY

The HAM Club Badging Ceremony marked the official induction of new members, celebrating their enthusiasm, commitment, and readiness to be part of a vibrant technical community. The ceremony symbolized a new beginning for the inductees, welcoming them into a club dedicated to innovation, collaboration, technical excellence, and continuous learning. It also highlighted the importance of teamwork, leadership, and active participation in shaping a dynamic club environment.

The ceremony was followed by an inspiring guest lecture on ″Journey from Data Collection to Intelligent Insights,‶ delivered by Ms. Vinothini Sethuraman, Data Scientist at LTIMindtree, India. The session offered valuable insights into the world of data science, explaining how raw data can be transformed into meaningful information that supports intelligent decision-making. Participants gained a better understanding of the role of data analytics in solving real-world problems and driving innovation across industries.

PICK & TALK

Pick & Talk was an engaging and interactive event designed to encourage participants to think critically and confidently present technical topics within a limited time. Participants selected random technology-related topics, organized their thoughts, and communicated their ideas clearly within one to two minutes. The activity provided a valuable opportunity to improve public speaking, communication, and spontaneous thinking skills. It also helped participants enhance their technical awareness, creativity, and ability to express complex ideas in a simple and understandable manner. Overall, Pick & Talk created an enjoyable learning environment that promoted confidence, knowledge sharing, teamwork, and effective communication among students.

TECH QUIZ

Tech Quiz provided an exciting platform for students to test their technical knowledge through multiple competitive rounds, including MCQs, rapid-fire questions, and a thrilling buzzer round. The event encouraged participants to think critically, respond quickly, and apply their technical knowledge under pressure. Each round brought a new challenge, keeping the participants engaged and creating an atmosphere filled with enthusiasm and healthy competition.

Beyond testing technical skills, the event promoted teamwork, effective communication, quick decision-making, and collaborative problem-solving. Participants had the opportunity to learn from one another, strengthen their confidence, and showcase their knowledge in a fun and interactive environment.

ELECTRONICS ESCAPE ROOM

The Electronics Escape Room challenged participants to solve circuit-based puzzles and technical quizzes under strict time constraints, creating an engaging environment that combined electronics knowledge with logical reasoning. Participants worked in teams to decode clues, analyze circuit-related challenges, and solve problems through two exciting levels: a technical quiz and an escape room challenge. The event encouraged quick thinking, effective communication, teamwork, and the practical application of theoretical concepts. Each stage tested the participants' ability to remain focused, think creatively, and make decisions under pressure.

Through this hands-on and interactive experience, students strengthened their technical understanding, enhanced their problem-solving abilities, and developed a spirit of collaboration and healthy competition. The event successfully transformed learning into an exciting adventure, inspiring students to explore electronics beyond the classroom.

SOLDERING WORKSHOP

The Soldering Workshop provided participants with valuable hands-on training in basic soldering techniques, electronic component handling, and circuit assembly. Through practical demonstrations and guided activities, students learned how to use soldering tools safely, connect components accurately, and understand the fundamentals of electronic circuits. The session encouraged teamwork, curiosity, and active learning as participants worked together to complete their tasks.

It also helped them gain confidence in handling hardware components and applying theoretical knowledge to practical situations. Overall, the workshop was an engaging learning experience that strengthened participants' technical skills and inspired them to explore electronics and hardware-based applications further.

TECH-GENESIS

Tech-Genesis challenged participants to showcase their technical knowledge, creativity, and presentation skills through engaging quizzes and innovative idea-pitching sessions. The event featured two exciting rounds: the Ranker Quiz, which tested participants' technical understanding, logical reasoning, and quick-thinking abilities, and the Pitch Relay, which encouraged students to present creative ideas and communicate them effectively within a limited time. Participants collaborated in teams, exchanged perspectives, and explored innovative approaches to solving real-world problems.

The competition fostered teamwork, critical thinking, problem-solving, and confidence while providing a platform for students to demonstrate their abilities. Overall, Tech-Genesis inspired participants to think beyond conventional solutions and transform their ideas into impactful innovations.

REUNION

The reunion brought club members together for a memorable day filled with laughter, bonding, and shared experiences. It provided a wonderful opportunity for everyone to reconnect, strengthen friendships, and create new memories beyond their usual club activities. The gathering included enjoyable moments, group photographs, a cake-cutting celebration, and a relaxed outing where members could interact and unwind. It was a refreshing break from academic commitments, allowing everyone to appreciate the friendships and teamwork built through their journey together. Overall, the reunion celebrated togetherness, strengthened the club's spirit, and created lasting memories that members will cherish for years to come.

MEMBER'S ACHIVEMENTS

A NIXON	ZYPH HACKATON (COIMBATORE)		PARTICIPATION (TOP 10)
CHRISTINE ANNA JOHN	ZYPH HACKATON (COIMBATORE)		PARTICIPATION (TOP 10)
